Roman

The company

A solid brand in ceramic industry

Since the early 70's, the company committed to the ceramic tiles industry with the production of wall tiles in PT. Metropole Megah, East Java. In the 90's Roman proved its solidity by opening a second plant, PT. Satyaraya Keramindoindah, in Tangerang, Indonesia. As a testament of its increasing success, production of a third plant in East Java started in 2007: this plant is named PT. Roman Ceramic International and is equipped with the most advanced Italian technology, making it one of the most efficient ceramic factories in the whole Indonesia and Asia.

Roman's facilities have been producing floor and wall tiles for the international market for more than three decades. Today, Roman continues to grow steadily, emerging as a leading international player and exporting to more than 90 countries worldwide, with an annual production capacity of 24 million square meters, managing the entire manufacturing process from raw materials to finished products. On a quest for flawless quality, in line with Roman's business philosophy, the standards set by the ISO 9001 certification guarantee the company has what it takes to compete in the global market.

PT. Roman Ceramic International and PT. Satyaraya Keramindoindah both belong to Lyman Group's Building Material Division.

A professional approach to fulfil our commitments

Professionalism is key to Roman's reputation as a leading producer of ceramic tiles. With a truly multinational team, we work hard to maintain an efficient communication flow, making sure we make good on our commitments. A holistic approach to the development of human resources gives our personnel a chance to grow, refining their skills and deepening their expertise while gaining an understanding of the company's operations as a whole. Such an approach promotes teamwork, allowing us to fulfil, and even exceed, our customers' expectations.

Cutting edge technology and uncompromising quality

Roman has perfected techniques that make its ceramic tiles among the most durable and appealing in the market. Sophisticated, Italian-made equipment and innovative processes ensure excellent colour consistency and vibrant hues with low maintenance year after year. Strict controls at each stage of manufacturing guarantee that each tile leaving the factory complies with the highest international and ISO standards. Plus, even the biggest delivery commitment or the tightest deadline is easily met, thanks to the company's one-roof, fully computerized system.

Floor Tiles

With Gress
Technology

Inside & Outside contemporary spaces.

Floor tiles **designed with cutting-edge technology** to meet the best standards of performance and beauty. All collections are manufactured using **single-fired Gres Technology**. The tiles are pressed and fired at high temperatures to minimize the pores in the body. The result is a product with outstanding flexural strength.

Shade Variations

Shade variations are the characteristic of the tile that deliberate and visible differences in graphics and colour hue. Digital Tecnica technology creates stunning ceramic tiles with hyper-realistic surface tones, markings and textures which mimic a range of natural materials including; stone, timber, terracotta, cement, mosaic, marble and more.

V1 (Uniform Appearance)
Differences among pieces from the same production run are minimal.

Radiant White
30x30

V3 (Moderate Variation)
Amount and intensity of colors on each piece may vary significantly.

dAcacia Brown
Hexagonal 34x39

V2 (Slight Variation)
Clearly distinguishable differences in texture and/or pattern within similar colors.

dEtincelle Grey
30x60

V4 (Substantial Variation)
Random color differences each tile, so that one tile may have totally different colors from other tiles.

dSantorini Blue
Hexagonal 34x39

R- Rating Slip Resistant

Floor tiles these days are given an **anti slip rating**. This rating comes in the form of an 'R' value (Ramp test) with a scale from R9 to R13 (R9 having the least slip resistance and R13 the highest slip resistance).

CLASSIFICATION	R9	R10	R11	R12
SLIP ANGLE	6-9 Degree	10-18 Degree	19-26 Degree	27-34 Degree
WET SLIP RISK	High Risk	Moderate	Moderate	Low Risk
AREA OF USE	DRY AREA	OCCASSIONAL SPILLS AND WETNESS	WET/OUTDOOR ENVIROMENT	WET/OUTDOOR ENVIROMENT

- **R9** : For internal dry area usage.
- **R10** : For internal area with occasional spill or wetness (need constant cleaning/drying) : kitchens and bathrooms.
- **R11** : For internal usage with constant spill or wetness (require continous cleaning and drying effort).
- **R12** : For external usage (works in dry and wet situation with cautions).
